WORLDWIDE ASSOCIATION
OF DIVING INSTRUCTORS

Student Name: _____ Family Name: _____ Date of Birth: _____ Sex M ☐ F ☐
Phone (____) _____ Email _____ @ _____
address _____ City _____ Postal Code _____
State/Province _____ Country _____

Prerequisites to Start Course:	Verified Instructor	WADI No.
Medical Statement	_____	_____
Liability Release	_____	_____
Statement of Safe Diving Practice	_____	_____
18 years or older	_____	_____
Advanced diver or "or similar certification level"	_____	_____
Rescue Diver "or similar certification level"	_____	_____
Minimum of 20 logged dives	_____	_____

Requirements for Certification:	Score	Verified Instructor	WADI No.
Valid First Aid and CPR		_____	_____
60 logged Dives		_____	_____
Knowledge development:		_____	_____
Physics of Diving Exam	_____ %	_____	_____
Physiology of Diving Exam	_____ %	_____	_____
Diving Equipment Exam	_____ %	_____	_____
Certified Divers Supervision Exam	_____ %	_____	_____
Student Divers Supervision Exam	_____ %	_____	_____
Skills Exam	_____ %	_____	_____
Environment Exam	_____ %	_____	_____
Theory of Decompression Exam	_____ %	_____	_____
Watermanship:		_____	_____
15 minutes float on surface	_____	_____	_____
600 meters Swim	_____	_____	_____
800 meters swim	_____	_____	_____
100 meters tired diver	_____	_____	_____
25 meters under surface swim	_____	_____	_____
6 meters skin diving	_____	_____	_____
Equipment exchange	_____	_____	_____
Risk management:		_____	_____
Emergency plan	_____	_____	_____
Rescue assessment	_____	_____	_____
Demonstration Skills:		_____	_____
Mask remove and clear	_____	_____	_____
Hovering	_____	_____	_____

WORLDWIDE ASSOCIATION
OF DIVING INSTRUCTORS

31 basic scuba diving skills:		Score	Verified Instructor	WADI No.
1	Equipment assembly and gear up procedures.	_____	_____	_____
2	Buddy review (ABC)	_____	_____	_____
3	Deep water entry	_____	_____	_____
4	Back water entry	_____	_____	_____
5	Back water entry (negative buoyancy)	_____	_____	_____
6	Buoyancy review	_____	_____	_____
7	Switch between regulator and snorkel	_____	_____	_____
8	Disconnect the low-pressure hose on surface	_____	_____	_____
9	positive buoyancy on the surface by mouth	_____	_____	_____
10	Remove weights and wear it on the surface	_____	_____	_____
11	Take off and put on equipment on the surface	_____	_____	_____
12	Ascending	_____	_____	_____
13	Regulator clear blowing method	_____	_____	_____
14	Regulator clear by purge button method	_____	_____	_____
15	Clean the partially flooded mask	_____	_____	_____
16	Clean the fully flooded mask	_____	_____	_____
17	Breathe without mask for 1 minute	_____	_____	_____
18	Swimming without mask 30 meters	_____	_____	_____
19	Neutral buoyancy 1 minute	_____	_____	_____
20	Low pressure hose disconnect & install under water	_____	_____	_____
21	1-minute Neutral buoyancy orally inflating BCD	_____	_____	_____
22	Static buoyancy 1 minute "hovering"	_____	_____	_____
23	Breathing from a free flow regulator	_____	_____	_____
24	Take off the weight system underwater	_____	_____	_____
25	Take off equipment underwater	_____	_____	_____
26	Underwater cramp release	_____	_____	_____
27	Underwater cramp release for your buddy	_____	_____	_____
28	Giving an alternate air source and ascending	_____	_____	_____
29	Controlled Emergency Ascent Swimming (CESA)	_____	_____	_____
30	Use of Surface Marker Buoy (SMB)	_____	_____	_____
31	Ascending	_____	_____	_____

WORLDWIDE ASSOCIATION
OF DIVING INSTRUCTORS

Conducting diving:	Score	Verified Instructor	WADI No.
Planning and preparing for diving:			
1. Choosing the diving site	<input type="checkbox"/>		
2. emergency plan for the selected diving site	<input type="checkbox"/>		
3. decompression calculations	<input type="checkbox"/>		
4. limits allowed	<input type="checkbox"/>		
5. need for assistance during descent and ascent	<input type="checkbox"/>		
6. flags or other signals if the need arises	<input type="checkbox"/>		
Dive Briefing:			
1. Place of processing and equipment preparation before and after diving.	<input type="checkbox"/>		
2. Site explanation (name and history, if any).	<input type="checkbox"/>		
3. Buddy teams and assignments.	<input type="checkbox"/>		
4. Entry, exit point and method and diving path.	<input type="checkbox"/>		
5. Determining time and depth limits.	<input type="checkbox"/>		
6. Currents.	<input type="checkbox"/>		
7. Potential risks, problems, and emergency procedures.	<input type="checkbox"/>		
8. Environmental considerations.	<input type="checkbox"/>		
9. Communication devices, emergency numbers and tools.	<input type="checkbox"/>		
Dive implementation:			
1. Assembling and putting on equipment.	<input type="checkbox"/>		
2. Monitor buddy review, air stock, equipment checks.	<input type="checkbox"/>		
3. Monitoring entry.	<input type="checkbox"/>		
4. Control descent process.	<input type="checkbox"/>		
5. Depth control, time and air consumption.	<input type="checkbox"/>		
6. Controlling the progress of the diving plan.	<input type="checkbox"/>		
7. Underwater navigation according to the dive plan.	<input type="checkbox"/>		
8. Supervising point and Buddy teams.	<input type="checkbox"/>		
9. Conditions such as currents, waves and others.	<input type="checkbox"/>		
10. (RM) and appropriate response in terms of <i>time</i> .	<input type="checkbox"/>		
11. Ascending to the surface and safe exit from the water.	<input type="checkbox"/>		
Post-Dive Procedures:			
1. Organizing, Controlling exit and equipment take-off.	<input type="checkbox"/>		
2. Checking diving computer, decompression calculation.	<input type="checkbox"/>		
3. Debriefing, including methods of equipment care.	<input type="checkbox"/>		
4. Logging the dive.	<input type="checkbox"/>
